With the help of our scientific knowledge and eyelash care serums which are developed and manufactured in Germany you will be able to experience the beauty of longer, fuller and stronger eyelashes that you have always dreamt about.

Product Description:

Develle Eyezone Moisture Complex Eyelash & Eyebrow Care Serum.

Develle Eyezone Moisture Complex Serum is the secret miracle product for your own permanently long, thick, beautiful eyelashes the natural way. It provides styling and care for eyelashes and eyebrows.

Develle Eyezone Moisture Complex Serum is a highly effective eyelash and eyebrow care serum with a rich combination of care ingredients. It supports the effects of Develle eyelash growth serums. Develle Eyezone Moisture Complex Serum strengthens eyelashes and eyebrows and guarantees healthy, shiny eyelashes and eyebrows. Elasticity and malleability of eyelashes are visibly optimised and eyebrows are defined.

The innovative and highly effective combination of various care ingredients such as collagen, panthenol and peptide-complexes in Develle Eyezone Moisture Complex Serum increases the production of collagen in eyelashes and eyebrows, for effective, expressive and naturally beautiful eyes.

Application:

Apply Develle Eyezone Moisture Complex Serum just like normal eyeliner. Apply Develle Eyezone Moisture Complex Serum once or twice daily – ideally in the evenings after cleansing of the eye area or in the morning before applying make-up – to the upper outer lash line (as shown in the

illustration). One brush stroke with Develle Eyezone Moisture Complex Serum is perfectly sufficient. For the treatment of eyebrows please follow the same procedure. Allow Develle Eyezone Moisture Complex Serum to work briefly. After that you can continue to use other care products as usual, or even Develle eyelash growth serum. First visible changes to the eyelashes can usually be seen after 4 weeks.

Important notice:

We recommend that you cleanse your hands and face with a mild cleansing product and water before applying Develle Eyezone Moisture Complex Serum. Should you experience an allergic reaction to any of the ingredients in Develle Eyezone Moisture Complex Serum, please stop treatment immediately.

Caution:

Please do not allow Develle Eyezone Moisture Complex Serum to come in contact with eyes. If contact occurs please flush eyes immediately with water. Please use Develle Eyezone Moisture Complex Serum in a strict hygienic way in order to guarantee the purity of this high-grade eyelash and eyebrow care product. Please do not apply Develle Eyezone Moisture Complex Serum during a car journey. Do not touch the eye with the applicator. For reasons of hygiene please do not share the product with other persons. The product must not be diluted or mixed with other substances (water, saliva etc.). Please keep Develle Eyezone Moisture Complex Serum out of reach of children at all times.
